

# Rocket® MultiValue Performance Experience

## Understand and enhance Rocket UniVerse performance

The Rocket® MultiValue Performance Experience (MVX: Performance) is a system monitoring tool for Rocket UniVerse that helps you identify and escalate performance-impacting events specific to Rocket UniVerse. Escalated events also include guidance on possible resolutions along with data snapshots, allowing you to easily track and address the source of an issue.

### Benefits/Features

#### Quickly Address Performance Issues

MVX: Performance looks at several sources to help DBAs identify and evaluate issues, even complex or hidden ones, plus provides resolution guidance.

#### Maximize Rocket UniVerse Availability

DBAs can rely on the dashboard and alerts to monitor license usage, record locks, and database process resource usage.

#### Mission Control for Rocket UniVerse

MVX: Performance monitors Rocket UniVerse metrics as well as operating system metrics, and the dashboard provides a single view into event flow.

#### Avoid licensing bottlenecks

"License Limit Warning" alerts let you know immediately if the number of authorized licenses is nearing its maximum number of users.

# What our customers have to say

Rocket Software's MultiValue Performance Experience for UniVerse provides proactive awareness of important performance-impacting issues that affect the stability of mission-critical applications where downtime is not an option, including valuable insights so we can quickly pinpoint and address these issues."

HENRY UNGER  
President,  
Pulsiam

## With MVX: Performance you can:

### Address performance issues quickly

Monitor multiple serial numbers – Cloud-based and on-prem UniVerse instances – from one screen.

### Prevent system slowdown

Numerous record/table lock alerts ensure thresholds are not exceeded.

### Focus on business

The notification engine and email alerts eliminate the need for a person to sit in front of a screen while monitoring.

### Improve user experience

Monitoring, notification, and proactive measures ensure UniVerse runs at a maximum level.

## MultiValue Performance Experience Monitors

20+ performance-impacting events

User sessions

Record and group locks

Reporting

The future won't wait—modernize today.
